ABOUT US :

WHO WE ARE?

Swiftkon Electromech Pvt. Ltd., established in 2017, is an electrical engineering and manufacturing company committed to delivering reliable, safe and efficient electrical solutions for industrial, commercial and infrastructure applications.

Our journey has been built on a strong foundation of quality, technical expertise, innovation and customer trust. We understand that every project has unique electrical requirements, and therefore focus on delivering practical, application-oriented and customized solutions.

With continuous development in our capabilities and experience, we strive to maintain high standards of manufacturing quality, precision, safety and service.

OUR VISION

To become a trusted and recognized name in electrical engineering and manufacturing, delivering innovative, safe and reliable solutions that create lasting value for our customers and contribute to a more efficient and sustainable future.

OUR MISSION

To deliver quality-driven, reliable and customized electrical solutions through technical expertise, continuous improvement and responsible manufacturing.

OUR COMMITMENT

At Swiftkon Electromech Pvt. Ltd., we believe that electrical solutions – especially those supporting fire protection systems – demand reliability, precision and responsibility. Our commitment is to deliver solutions that combine:

Safety | Quality | Reliability | Performance

We continue to move forward with a clear purpose:

TO ENGINEER. TO PROTECT. TO DELIVER.

Our Achievements

Up to 425HP
Motor Starter Panel Supplied

Up to 100HP
Main Pump, M+J & M+J+D Panel Ready Stock

10000+
Fire Panel Successfully Supplied

1500+
LT Panel Projects Executed

2000+
Machinery Automation Panel Supplied

Swiftkon Electromech

ELECTRICAL & AUTOMATION SOLUTIONS

01 | FIRE PUMP CONTROL PANELS

- Fire Pump MCC & Control Panels
- Jockey Pump Control Panels
- Diesel Engine Control Panels
- Fire Pump Annunciator Panels
- Deluge Valve Control Panels
- GSM Based Fire Control Panels
- IOT & Smart Fire Pump System Monitoring
- Multi Pump Fire Control Panels

02 | ELECTRICAL CONTROL PANELS

- Solar 800V ACDB Panels
- Auto Changeover Panels (ATS)
- 415V & 800V ACB / C.B. Busduct Panels
- (Sandwich & Conventional)
- PCC Panels
- APFC Panels
- PDB Panels

03 | INDUSTRIAL AUTOMATION

- Control Desk Panels
- Automation Panels (Machinery)
- PLC Automation Panels
- SCADA Control Panels

04 | HVAC PANELS

- Basement Ventilation Panel With Automation
- FA & EX Fan Control Panel
- Heater Control Panel
- AHU Control Panel
- TFA Control Panel
- Blower Fan Control Panel

05 | CUSTOM ENGINEERED SOLUTIONS

- Plastic Recycle Extrusion Machine Control Panel
- Candy Machine Control Panel
- Plastic Injection Moulding Machine Panels
- Custom Built Electrical Control Panels

06 | POWER & ELECTRICAL SOLUTIONS

- HT VCB & HTMC Panels
- Power Distribution Transformer
- Voltage Stabilizer (Air Cooled & Oil Cooled)
- Pressure Switch
- Pressure Gauge
- Flow Switch
- RR Cable

OUR WORK PROCESS

Swiftkon Electromech
PRIVATE LIMITED

FIRE PUMP ROOM

COMPLETE FIRE PROTECTION. RELIABLE PERFORMANCE.

KEY FEATURES

- Auto & Manual Operation
- Clear Status & Fault Indication
- Digital Metering Options
- Heavy-Duty Enclosure Construction
- Customized as per Pump & Application
- Quality Tested & Inspection Controlled
- Reliable Performance for Fire Protection Applications
- Suitable for Commercial & Industrial Installations

FIRE SAFETY
Designed for reliable fire protection

CUSTOM BUILT
Engineered to suit your application

SMART MONITORING
Advanced monitoring options for better control

QUALITY ASSURED
Tested for dependable performance

Swiftkon Electromech
PRIVATE LIMITED

IOT BASED FIRE PUMP CONTROL PANEL

Our IOT Based Fire Pump Control Panel enables smart monitoring, remote access and real-time data communication for efficient and reliable fire protection.

IOT CONNECTIVITY
Smart Remote Communication from Anywhere, Anytime.

REMOTE MONITORING
Monitor Pump Status, Performance & System Health Remotely.

REAL-TIME ALERTS
Instant Fault & Status Alerts via App / SMS / Email.

SMART CONTROL
Automatic Pump Monitoring & Control for Optimal Performance.

FIRE PUMP CONTROL PANEL WITH ANNUNCIATOR

IOT CONNECTIVITY
Smart Remote Communication from Anywhere, Anytime.

REMOTE MONITORING
Monitor Pump Status, Performance & System Health Remotely.

REAL-TIME ALERTS
Instant Fault & Status Alerts via App / SMS / Email.

SMART CONTROL
Automatic Pump Monitoring & Control for Optimal Performance.

- Main Pump & Jockey Pump Control
- Visual & Audible Alerts
- Reliable & Efficient Performance
- Easy To Operate & Maintain
- Built To Meet IS, IEC & NBC Standards

OUR OTHER PRODUCTS

SERVO VOLTAGE STABILIZER

Our Servo Voltage Stabilizer is designed with advanced servo motor technology that ensures accurate voltage correction, protects your sensitive equipment and increases their life.

High Accuracy
Precise Voltage Regulation

Microprocessor Control
Advanced & Reliable Operation

Wide Input Range
Handles Wide Voltage Fluctuations

Over / Under Voltage Protection
Enhanced Equipment Safety

Digital Display
Real-time Monitoring

Manual / Auto Operation
User-friendly Control

SPECIFICATIONS

Capacity
5 KVA to 1000 KVA

Input Range
360V – 480V

Ac Output Voltage
230V / 415V* / 380*

Frequency
50Hz

*Specifications may vary as per model.

RR KABEL – WIRES & CABLES

RR Kabel offers a wide range of high quality wires & cables that ensure safe, reliable and efficient performance for all your residential, commercial and industrial needs.

Safe
High Quality Insulation

Reliable
Consistent Performance

Durable
Long Lasting Life

Eco Friendly
Environment Conscious

Range
0.25 sqmm to 400 sqmm
Ready Stock

Availability
As per General Requirement

Armored Cables
Armored cables are designed with an additional protective layer of steel wires or steel strip over the insulation and inner sheath. They provide excellent mechanical protection against impact, crush and external stress.
Applications: Underground installation, Industrial plants, high-rise buildings, areas with mechanical damage risk.

Unarmored Cables
Unarmored cables do not have any metal armoring. They are flexible, lightweight and easy to install. Ideal for general wiring and areas where mechanical protection is not a major concern.
Applications: Residential wiring, commercial buildings, internal installation, conduits and trays.

OUR OTHER PRODUCTS

Pressure Switch

- Danfoss Kp36
- Reliable Pressure Control For Fire Pump Systems & Water Applications
- Wide Adjustable Range
- Easy Installation & Maintenance

Pressure Gauge

- Accurate Pressure Monitoring
- 14 Kg & 21 Kg | With & Without Glycerine
- Clear & Easy To Read Dial
- SS304 & MS Body Available

Flow Switch - Honeywell

- Reliable Water Flow Detection
- Modular Type
- Compact & Rugged Design
- Suitable For Various Pipe Sizes

Pressure Gauge

- Precise Water Flow Monitoring
- Analog Type
- ULFM Approved
- Easy Installation & Long Life

ELR With MCCB Box - In Stock

63A TO 630A MCCB BOXES
Ready stock for reliable protection and distribution applications. Compact, robust construction with easy installation and maintenance.

ATS Box – In Stock

Ready stock for automatic source changeover applications, ensuring reliable and seamless power transfer between sources.

WHY CHOOSE SWIFTKON ?

QUALITY YOU CAN TRUST
Premium quality components and robust enclosures ensure long-lasting performance and maximum safety.

CUSTOMIZED SOLUTIONS
Every panel is engineered as per project requirements to deliver the right solution for your application.

EXPERIENCED TEAM
Skilled engineers and technicians with deep expertise ensure precise design and manufacturing.

100% QUALITY TESTED
Each panel undergoes rigorous testing and inspection at multiple stages to ensure flawless performance.

IN-HOUSE MANUFACTURING
Complete manufacturing setup under one roof – from fabrication to assembly and testing.

RELIABLE AFTER SALES SUPPORT
Dedicated support team always ready to assist you for smooth operations and quick issue resolution.

ON-TIME DELIVERY
Efficient production planning and strong execution ensure on-time delivery for every commitment.

SERVING MULTIPLE INDUSTRIES
Trusted by clients across Fire Protection, Industrial, Commercial and Solar sectors.

INDUSTRIES WE SERVE

Chemical	Pharmaceuticals	Oil & Gas	Petrochemical	Power Plants	Water & Wastewater
Automotive	Food & Beverage	Cement	Steel & Metals	Textile	Paper & Pulp
Infrastructure	Mining & Minerals	Railways	Airports	Commercial Buildings	Hospitals
Data Centers	Educational Institutions	Hotels	Shopping Malls	Defence	Solar Energy
